## Experience

**Co-Founder**                                                          **Sep 2024 - Present**
*Filterfeed.in*

- Led the development and launch of FilterFeed.in, a curated news platform delivering trending, relevant, and viral stories to users.
- Collaborated with API companies to secure reliable news sources and ensured seamless integration into the platform.
- Analyzed user feedback and platform performance to iteratively improve functionality and user experience.
- Facilitated cross-functional communication among tech, legal, and marketing teams to achieve project milestones.
- Established partnerships to enhance the platform's reach and maintain a competitive edge in the news industry.
- Regularly incorporated customer feedback through weekly updates to improve the website and advanced the development of a mobile app for broader accessibility.

## Projects

**Community Development Project** | *Shri Gopal Godown Gaushala*          **June 2024 - July 2024**
- Entered payment and donation vouchers accurately into the accounting software
- Managed the processing of invoices and ensured timely payments
- Reconciled bank statements to ensure all transactions were recorded accurately
- Enhanced Online Presence and Donation Management and Implemented Staff Training and System Upgrades

**Personal Blog Website** | *HTML, CSS, JavaScript*                      **February 2023 - March 2023**
- Featured a responsive layout, ensuring the website looked great and functioned well on all devices
- Enabled users to easily create, edit, and manage blog posts with a clean, user-friendly interface powered by HTML and JavaScript functions
- Used JavaScript to dynamically display and filter blog posts based on categories or search terms, enhancing user experience and content accessibility
- Included interactive elements like animated buttons, image sliders, and dropdown menus, created using CSS and JavaScript, to make the browsing experience engaging
